## GETAC RAILROAD MANAGEMENT SOLUTIONS

### RAILROAD MANAGEMENT

The world is becoming more urbanised and the population is growing, driving the need for more efficient and optimal railroads – to achieve this you need a railroad management system that is up to the task. Getac's solutions for railroad applications provide solid support for professionals that keep railroads working efficiently and safely.

## THE CHALLENGE IN RAILROAD

Some of the common challenges that can impact the adoption of new technologies include:

- A tough environment where you must consider extreme weather conditions
- A reliance on legacy systems which can make it hard to integrate the latest technologies
- Field worker can often experience poor connectivity when needing to access remote resources
- The need to track assets and have access to this data in real-time
- The high demand, high throughput nature of rail networks

## USER GROUP - RAILROAD MANAGEMENT

## RECOMMENDED GETAC SOLUTIONS

### Laptops:

· V110 (11.6")

· B360 (13.3")

· S410 (14")

### Tablets:

· UX10 (10.1")

· F110 (11.6")

· K120 (12.5")

### Software:

· Getac Device Monitoring System

· Getac KeyWedge Barcode Reader Utility

· Getac VGPS Utility

# GETAC RAILROAD MANAGEMENT SOLUTIONS

In every industry we support, we're passionate about ensuring uptime across mobile workforces. In railroad management, our rugged and complete solutions enable far greater operational effectiveness and reduce downtime. Our comprehensive range of rugged devices give your mobile workforces the tools they need to perform maintenance activities and achieve 'first time fix' across your essential infrastructure.

## SOLUTION FEATURES

Mobile device solutions not only enable rail companies to respond quickly to incidents and requests, they enhance control over workforce activity with applications such as dynamic scheduling, time tracking, alerts and more to ensure your professionals keep productivity high.

The Getac Enabling Program delivers sector focused total solutions, enabling our customers to adopt the latest technologies to address the ever-evolving demands of the rail industry.

Enhanced connectivity ensures access to your data and core systems in real-time providing total visibility across your rail network.

Multiple port connectivity options including legacy ports to support future and aging railway infrastructure.

Our solutions are inherently rugged, built to thrive in extreme weather conditions and withstand impacts and drops up to six feet, helping your workforce to face whatever challenges they meet.

Solution deployment is a large investment. To prolong the life of your product and increase your ROI, Getac offers 3 year's Bumper-to-Bumper accidental damage cover as standard across the fully rugged product range, with the ability to extend from 3 to 5 years and beyond.

# GETAC RAILROAD MANAGEMENT SOLUTION BENEFITS

## ✔ **COMPREHENSIVE SOLUTIONS**

With our world class network of partners, we deliver fully integrated solutions that include peripherals, mounting kits, device charging, carry solutions, security and connectivity software, and other accessories to create your total solution.

## ✔ **SOLUTION AS A SERVICE**

Subscription models are available to spread the investment and take advantage of a strong ROI.

## ✔ **OPTIMAL SCREEN SIZE FOR ALL WORKFLOWS**

Data capture, technical publications, wiring diagrams, and job card information require larger screens for enhanced viewing and input.

## ✔ **GETAC SELECT OFFERING**

Getac Select delivers total solutions for the rail industry, including a range of software solutions to support device uptime, manage your assets and streamline your deployment.

## ✔ **ENHANCED CONNECTIVITY**

Real-time data can be collected and transmitted to our devices through a range of communications technologies such as 5G/4G, Wi-Fi 6, RFID and Bluetooth.

## ✔ **EXCELLENT TCO & ROI**

Getac rugged computers deliver excellent total cost of ownership (TCO) and return on investment (ROI), with one of the lowest average failure rates in the industry and an industry-leading 3-year warranty that covers accidental damage with our Bumper-to-Bumper service as standard.
